

5000 litre (Actual capacity 5424 litres)

F-Line Flat Tank shallow dig underground tank

Why buy this tank?

- The F-Line is a high quality, rotationally moulded, one piece rainwater tank that can be installed without the need for concrete, thereby minimising installation costs and supported by our long term **25 year tank guarantee**.
- Minimal installation depth
- Easy and quick to install
- Small excavation pit and little earth excavation preserves your garden
- Ideal for installation in new or existing properties
- Can be installed in ground water up to tank shoulder
- Easy to install

The F-line flat tank can be installed into much higher water tables than a standard round tank. If you don't know what your water table will be like in the winter, you're safer to install a flat tank. The F-Line tanks are flat and the installation depth is up to 60% less than other rainwater tanks. The excavation can be up to 70% less, meaning little earth excavation, easy handling and less cost for you! The small excavation pit is easily filled in and your garden will look just like it did before.

Size	Length	Width	Height tank body	Height incl. Entrance shaft	Weight
1500 litre*	2400mm	1200mm	650mm	1015mm	80kg
3000 litre	2400mm	2400mm	650mm	1015mm	170kg
5000 litre	2960mm	2220mm	920mm	1350mm	250kg
