Cattle Drinkers

The Kingspan range of tough cattle drinkers represents the best products of their kind available in the market. Simple and economical, these cattle drinkers come in a wide variety of sizes.

Our range of Fast Fill Drinkers are fitted with the new Fast Fill ball valve which delivers much quicker flow rates than standard ball valves.

Features

- Rotationally moulded from top quality medium density polyethylene.
- Ultraviolet stabilised for protection against sunlight.
- Extremely durable.
- Excellent impact strength, lightweight and easily transported.

Animal Feeders

Available in various sizes.

Milk Feeders

Heavy duty polyethylene milk feeders designed to suit calves. All feeders are designed to secure over gate or rail.

- Designed as a milk delivery system for 1 to 5 calves (fitted with peach teats)
- Available in black & white (1MF)
- Available in grey, orange & white (3MF/5MF)
- Separate compartments reduce risk of cross-contamination
- Easily cleaned/increased hygiene
- Each compartment holds approx. 2.5 litres (3MF/5MF)

		
1MF	3MF	5MF

Boot Bath, Chemical Store, Maxi Bunker & Maxi Store

Boot Bath

Boot bath ideally used at the entrance of poultry units, piggeries and dairies etc. to disinfect, clean and decontaminate boots before entering and help the control of disease.

Manufactured in bright yellow helps the boot bath stand out so that it can be seen easily and be more readily used by visitors to the

site. It also has a lid that is easily flipped open with your foot. The lid is designed to keep rainwater out and helps avoid the solution becoming diluted.

Length	510 mm
Width	485 mm
Height	250 mm

Chemical Store

The large bunded store is ideal for the storage of dry chemicals (powders) and features fully lockable lid, removable powder store and a galvanised floor.

- Lid is lockable ensuring contents are securely stored (lock not included)

- Polyethylene divider included for separating contents

CHEMICAL STORE AD96

Length	1140 mm
Width	540 mm
Height	670 mm

Maxi Bunker

FCBU	
Capacity	30x25 kg Bags
Length	1920 mm
Width	1060 mm
Height	1000 mm

These bunkers were primarily designed to provide an attractive and secure display for a forecourt, but have evolved into a multi-functional storage container.

- Moulded in impact and UV resistant MDPE to give an exceptionally strong, long life construction.
- Rust, rot and weather resistant.
- Fully retractable roof for exposing products.
- Black, red, green or blue colours available on request.
- Requires no assembly and is easy to access for filling and emptying.
- Each MAXI bunker is supplied with a padlock.
- Suitable for forecourt location - storing pre-packed products such as wood, coal, charcoal or pet food.
- May be fitted with hasp and staple (on request).

Maxi Store

MAXISTORE BK	
Length	1140 mm
Width	540 mm
Height	670 mm

A compact container, suitable for a variety of storage needs, anything from domestic and agricultural to commercial whether indoor or outdoor.

- Lid is lockable ensuring contents are securely stored (lock not included).
- Moulded in impact and UV resistant MDPE to give an exceptionally strong, long life construction.
- Rot, rust and weather resistant.
- Available in black as standard. Other colours are available on request.
- Black polyethylene divider included for separating contents.
- Suitable for secure holding of paint etc, pet food, toys, bags of wood or small garden equipment.

Grit Bins & Coal Bunkers

Grit Bins

Designed with the suitability and endurance required for public locations, these containers are primarily for the storage of salt and sand, for using in icy weather to keep paths and driveways slip free, but are also suitable for grain and garden equipment.

Features

- › May be fitted with hasp and staple (on request)
- › Vandal resistant double skin lid which makes it ideal for public locations
- › Highly visible yellow

Large Scale Storage Solutions

15,000-litre Liquid Fertiliser, AdBlue®
& Water Storage Solutions

AgriMaster Liquid Fertiliser

AM15000

Weight: 340 kg

- Can hold up to 1.4 SG liquid fertiliser solution
- Easily monitor liquid fertiliser levels with the tank's semi-transparent design

BlueMaster AdBlue®

BM15000

Weight: 310 kg

- Can hold up to 1.1 SG AdBlue® solution
- AdBlue® level is readily visible to the eye due to the tank's semi-transparent colour

AquaBank Water

AB15000

Weight: 365 kg

The Benefits of Black Colour:

- Algae growth prevention
- Preserves rainwater quality
- Enhanced water heating efficiency

Features & Benefits

- **Superior Construction**
Crafted as a single, seamless unit for ultimate durability.
- **Quality Material**
Engineered from high-quality polyethylene for outstanding strength.
- **Smart Monitoring**
Local or remote level monitoring options are available.
- **Corrosion-Free**
Resists rust and degradation for long-lasting reliability.
- **Maintenance-Free**
No repainting needed, ensuring hassle-free ownership.
- **Weatherproof**
UV stabilised to withstand harsh weather conditions.
- **Easy Transport**
Fits standard trucks for effortless mobility.
- **Simple Installation**
Compatible with farm equipment for easy setup and relocation.

Dimensions

Height 3660 mm
Diameter 2480 mm

Specification

- Access lid 22"
- Inspection lid 8"
- 2" (or optional 3") bottom outlet fitted with stainless steel ball valve
- Ventilation outlet
- 4 Lifting Points
- Moulded in mounting points
- Stainless steel fittings with EPDM rubber gaskets

Rainwater Harvesting & Storage Systems

RainStore
Above Ground Retrofit
Rainwater Storage Systems

The free standing tanks require no specialist installation and come in sizes that will really make a difference to metered properties and areas prone to water restrictions in summer months. The RainStore Range of rotationally moulded storage tanks are tough, durable and built to last.

CE Marked*

Tank Guarantee**

Features

- › SpillStop overfill prevention device fitted as standard. This device shuts off once fuel reaches approx.95% of the tank capacity.
- › The double skin construction ensures environmental protection and safeguards against leaks and ground contamination
- › Increased security due to lockable lid protecting your fuel
- › Remote oil level monitor reduces the possibility of running out of oil (sudden drop alarm and low level alert)
- › Bottom outlet, unique gate valve and filter supplied as standard

Watchman Tank Pack NEW

All EcoSafe tanks come complete with Watchman tank pack, which includes a Watchman Sonic Advanced Tank monitor, PTFE tape and the Kingspan 2-Part Valve.

The new Kingspan 2-Part Valve features a safe isolation shut-off valve and a 10-micron particle filter. It offers instant isolation, debris removal, and pollution-free operation, saving hours of labour by eliminating the need to drain the tank for filter replacement.

SENSiT Ready

It is possible to upgrade to Watchman

Fuel Type: Kerosene (C1/C2), Fuel Oil (A2), Gas Oil/Diesel (D) and biofuel as defined in BSEN2869, BSEN590 and BSEN14214.
