Potable and Non-Potable Water Tanks

Whether it's water for animal drinking or for general use including vehicle washing, the Kingspan range of large capacity, potable and non-potable water storage tanks provide the best solution on the market.

- Manufactured from UV resistant medium density polyethylene
- Fitted as standard with 2" BSP male outlets which can be connected onto copper, pex, etc
- Tough and durable
- Rust, rot and weather resistant

- Recyclable
- Fitted with a sealed 16" hinged manhole cover to allow access for fitting of ballcocks, floats and extra outlets
- All water tanks require a solid base for installation

Potable Water Tanks

Specifically designed to store water for animal drinking or emergency human consumption, Kingspan potable water tanks are made from a WRAS approved material.

Non-Potable Water Tanks

Designed as a basic water storage tank for non-drinking (not intended for human consumption) use such as vehicle washing, irrigations and washdowns.
